

## ON-SITE IMPAIRMENT COVER

The storage of fuels, chemicals and other potential pollutants presents a unique set of environmental contamination risks. These can lead to financial penalties and legal action for operators and business owners.

Claims of this nature can easily exceed R1 million for an average-sized site and may take years to complete. The owner/operator will be held liable for the clean-up and rehabilitation costs. The government may fine up to R10 million and/or 10 years in jail for non-compliance following an incident.

### BENEFITS

- ✔ We cover clean-up, rehabilitation costs and expenses, for which the insured client is legally liable in respect of an environmental incident arising from above-ground storage of potential pollutants.
- ✔ Cover includes warehousing, yard storage, above-ground tanks, products in the manufacturing process, and both loading and offloading.
- ✔ The client will have access to our 24-hour call centre to report all incidents, ensuring an immediate response to reduce the size and cost of a claim.
- ✔ The policy holder will receive: 1 x Free Depot Spill Kit (valued at R2000), with annual replacement of absorbents.
- ✔ Our policy meets the licence requirements for financial provision for rehabilitation, as requested by government departments for licencing purposes.

### COSTS

Please contact your broker to complete an application form, as premium varies due to the risk, volumes and age of tanks.

\*Premiums will be VAT inclusive.

This cover is a Centriq Insurance Company offering.
