

Envirosure Cookie Policy

COOKIES

Our Privacy Policy explains our principles when it comes to the collection, processing, and storage of your information. The Cookie Policy specifically explains how we deploy cookies, as well as the options you have to control them.

WHAT ARE COOKIES?

Cookies are small pieces of data, stored in text files, that are stored on your computer or other device when websites are loaded in a browser. They are widely used to 'remember' you and your preferences, either for a single visit (through a 'session cookie') or for multiple repeat visits (using a 'persistent cookie'). They ensure a consistent and efficient experience for visitors, and perform essential functions such as allowing users to register and remain logged in. Cookies may be set by the site that you are visiting (known as 'first party cookies'), or by third parties, such as those who serve content or provide advertising or analytics services on the website ('third party cookies').

COOKIES SET BY envirosure.co.za

We use cookies in order to allow Wordpress to function, which is the Content Management System (CMS) used to build our website. These are session cookies as they expire once the user logs out or exits the page.

Here is a list of the cookies our site uses:

wordpress_[hash]: to store the authentication details on login.

wordpress_logged_in_[hash]: to indicate when you are logged in, and who you are.

wordpress_test_cookie: to check if the cookies are enabled on the browser to provide appropriate user experience to the users.

wp-settings-{time}-{UID}: to customise the view of your admin interface and the front-end of the website.

CONTROLLING COOKIES

browsers provide for ways to control cookie behavior such as the length of time they are stored — either through built-in functionality or by utilising third party plugins.

To find out more on how to manage and delete cookies, visit aboutcookies.org.

Some specific opt-out programs are available here:

Google Analytics - <https://tools.google.com/dlpage/gaoptout>

It's important to note that restricting or disabling the use of cookies can limit the functionality of sites, or prevent them from working correctly at all.
